

**LIBERALFX**

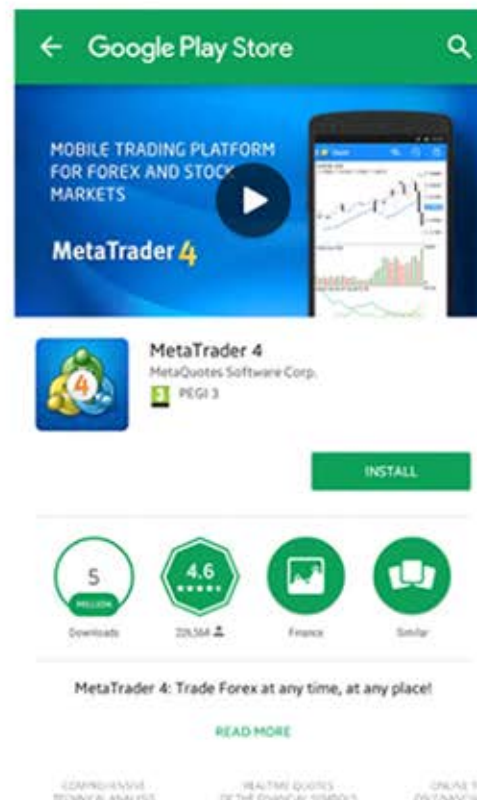

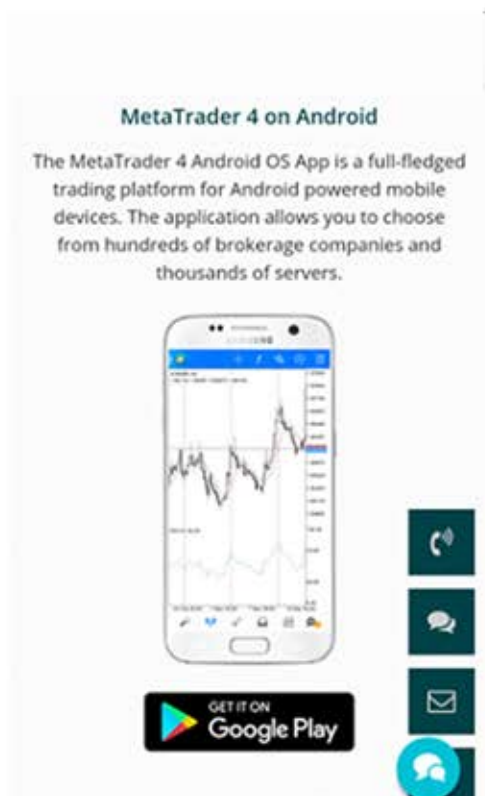

# MetaTrader 4

## Install & Run on Android

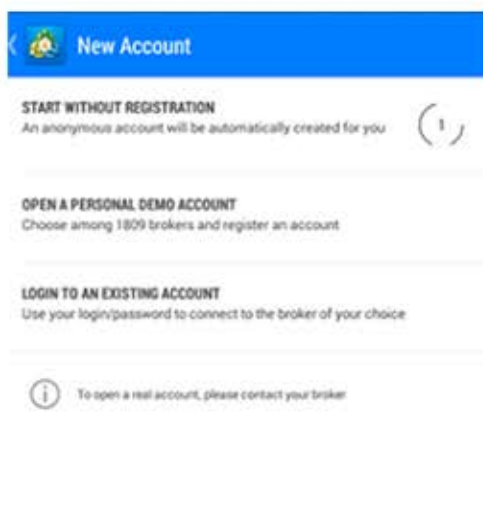

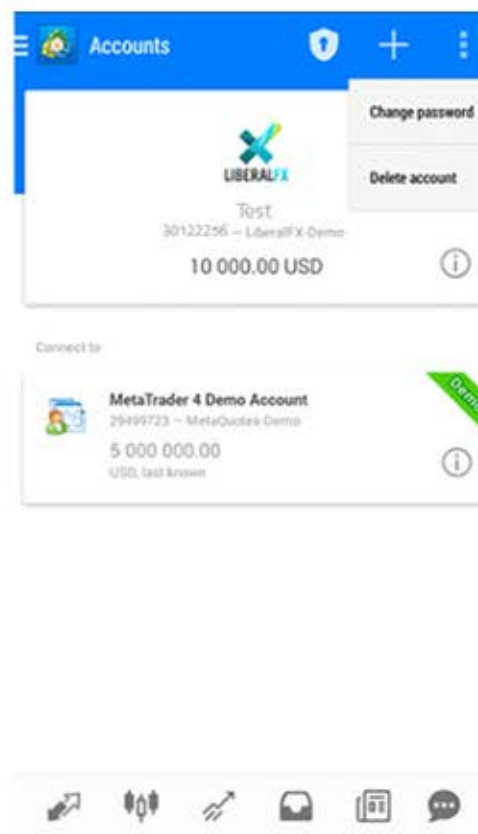

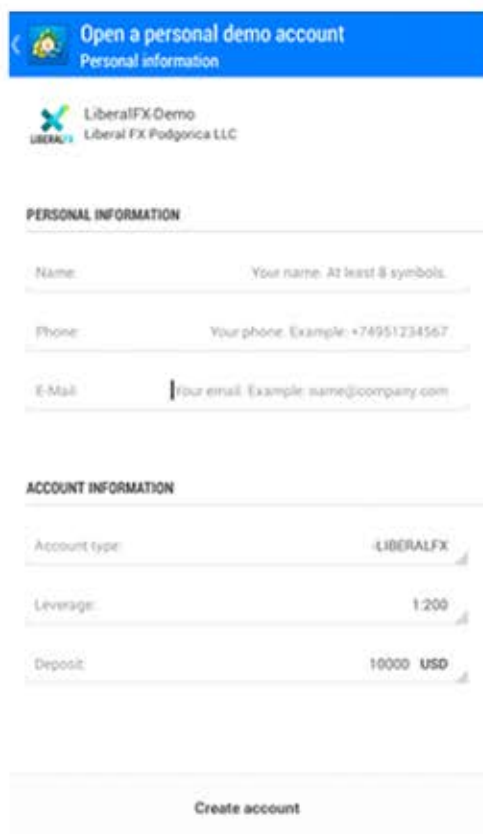

First, Go to the LiberalFX website and enter the menu. And select "MetaTrader 4 Mobile" on the "Trading Platforms"

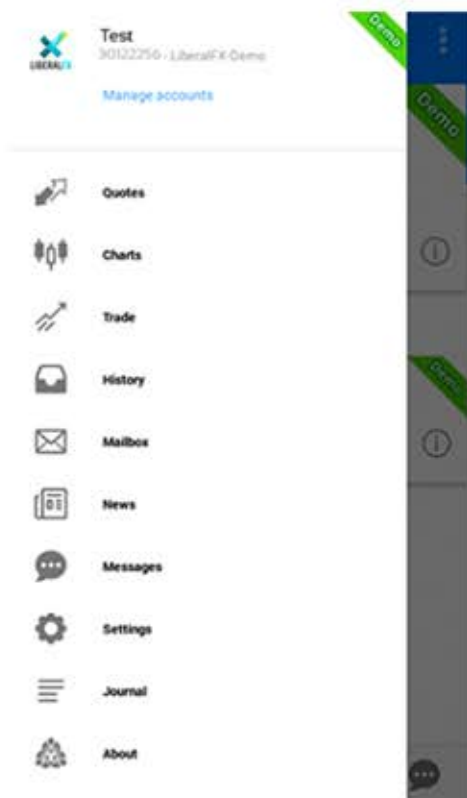

Click "GET IT ON GOOGLE PLAY" and download MetaTrader 4 on Android.

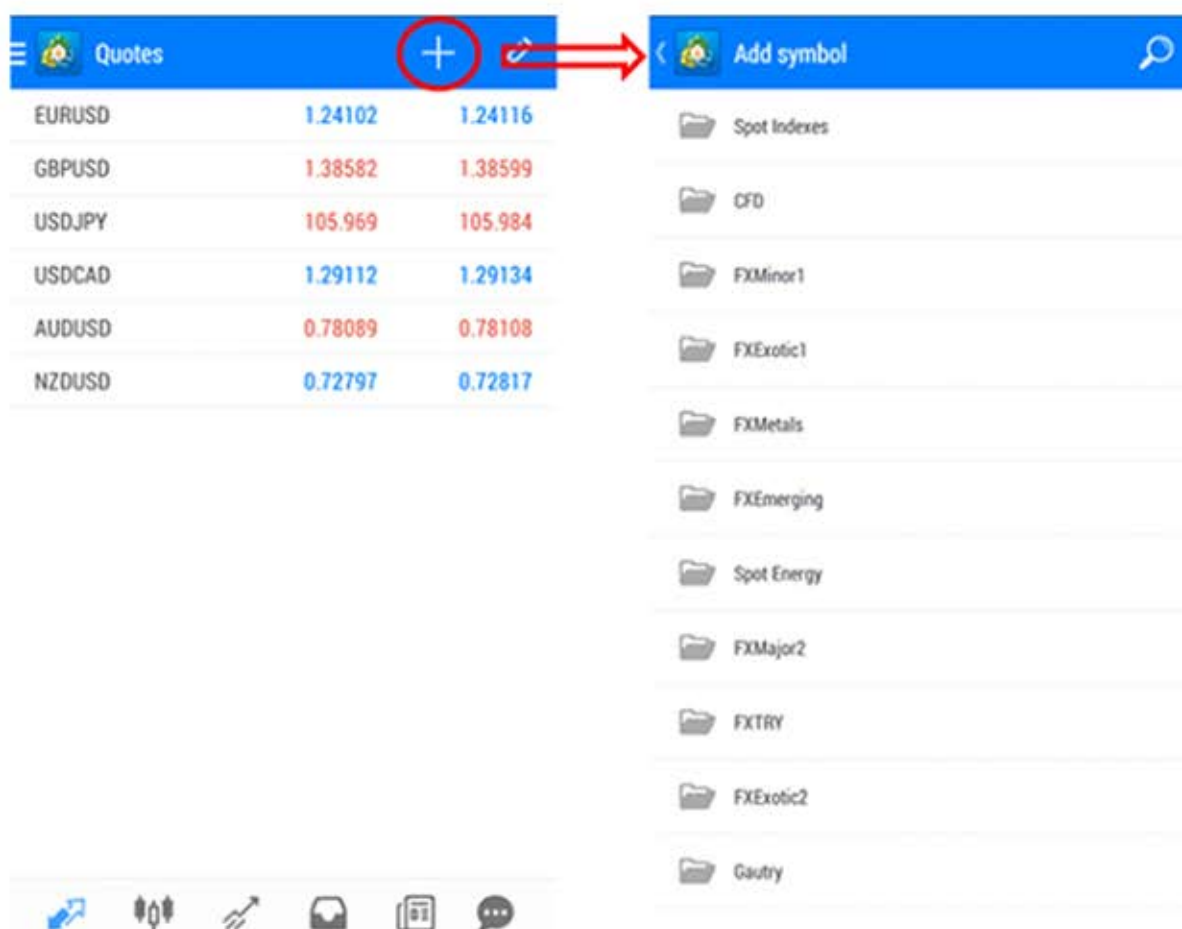

Click "OPEN A PERSONAL DEMO ACCOUNT". And right side, find "LiberalFX-Demo".

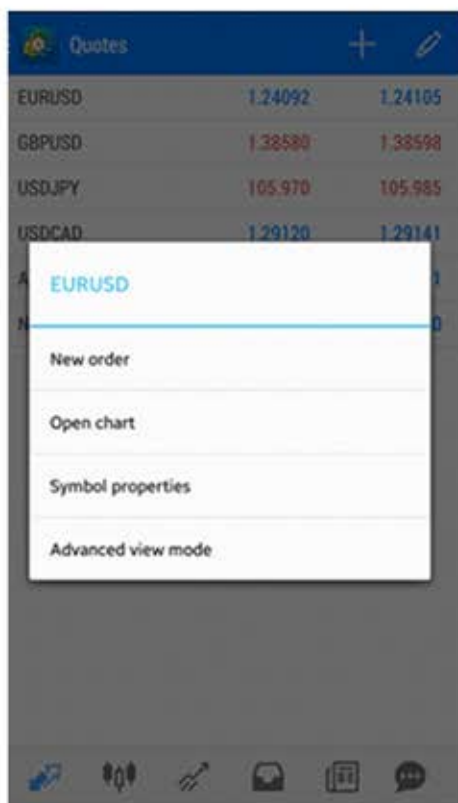

Create a new account on this screen. You can change your password or you can delete your account.

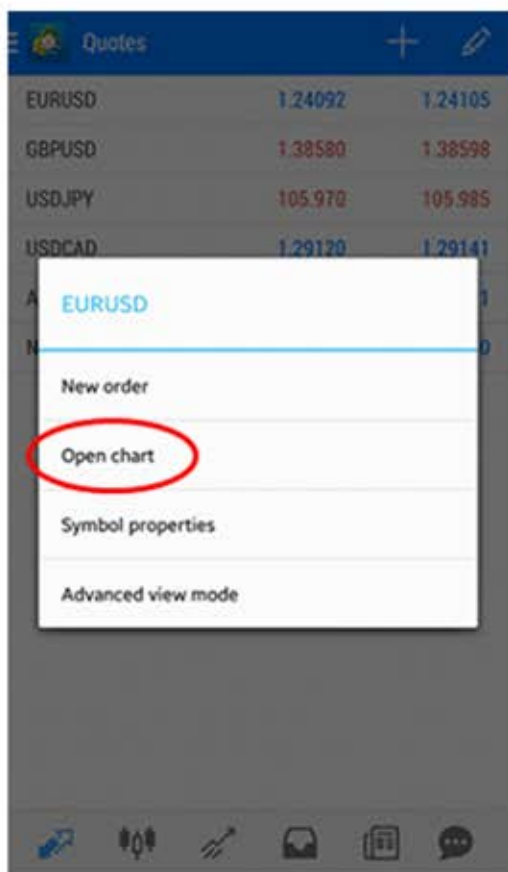

This is the menu.

Click "Quotes" and You will see this screen. You can add other symbol.

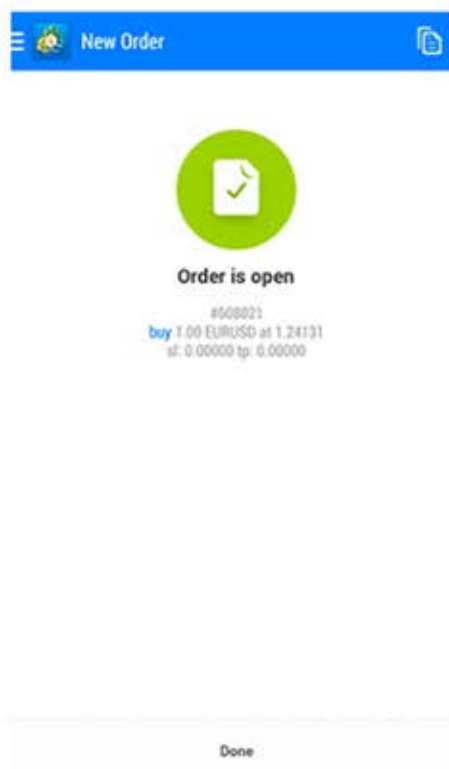

Click one of this parity and you will see the menu. Right Side Screen is New Order Screen. You will trade on this screen.

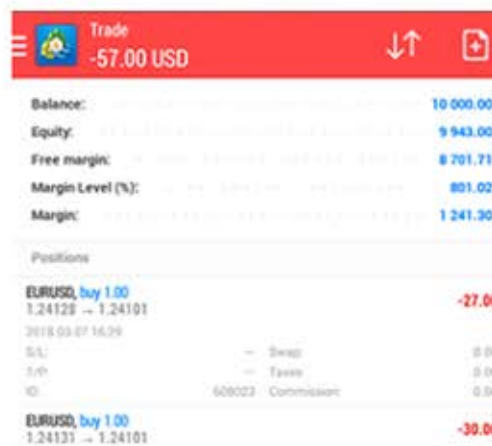

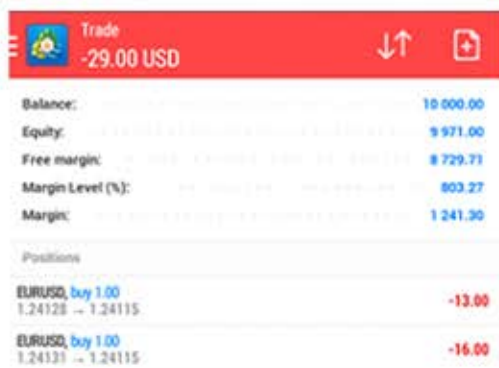

You can open the chart on the menu or using chart button under the screen.

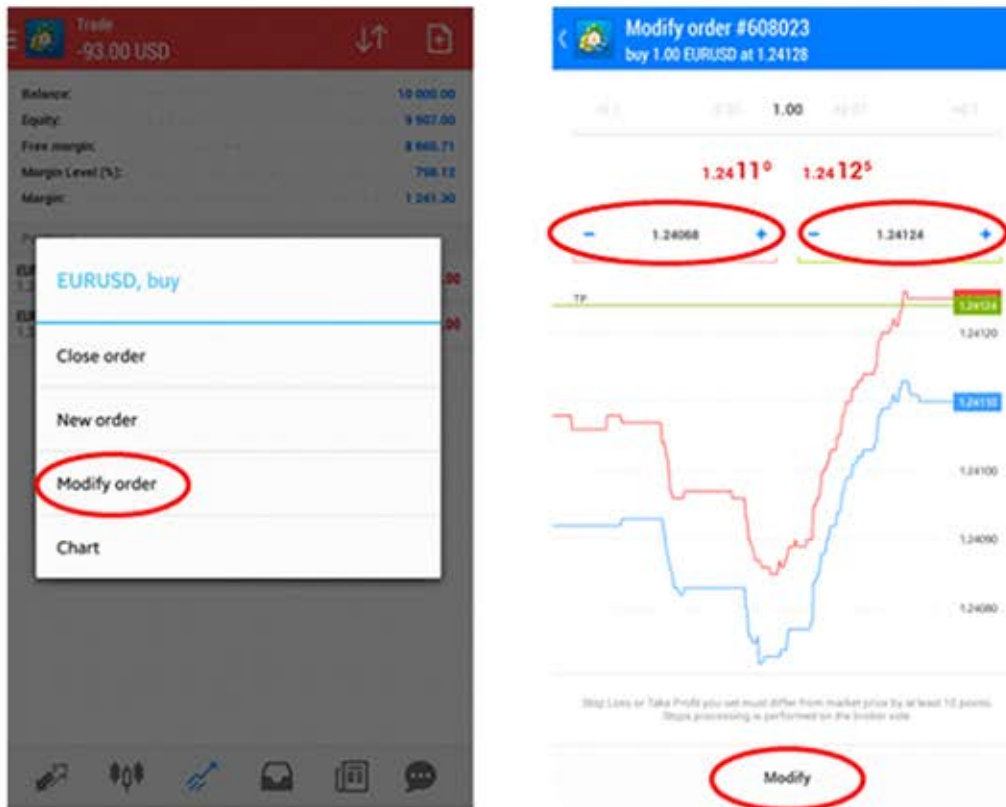

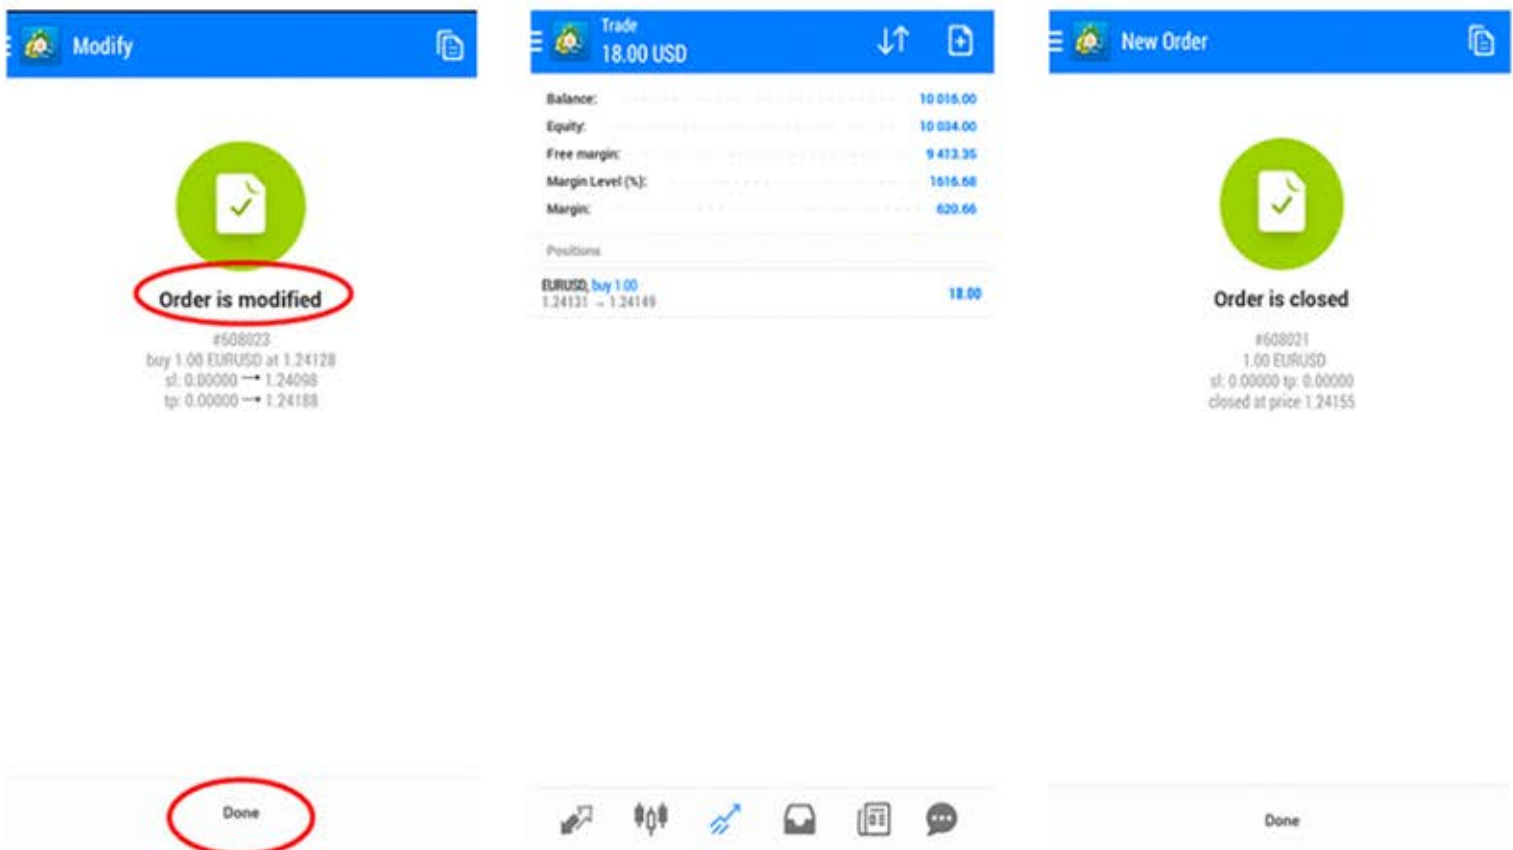

Click "Sell" or "Buy" button for trading. And you will see your order like on right side screen.

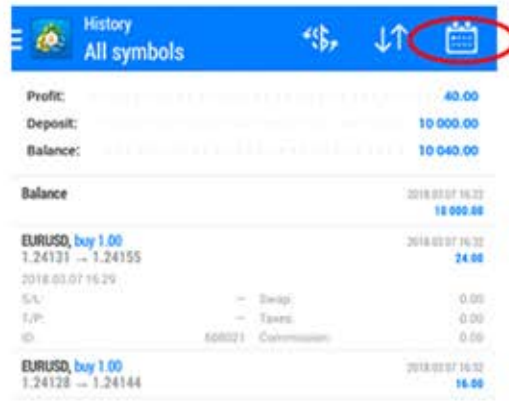

You can see your positions, balance, equity, free margin, margin level and margin on this screen.

You can determine "Stop Loss" and "Take Profit" point. Choose your levels and click "Modify".

You can close your position by holding down on it.

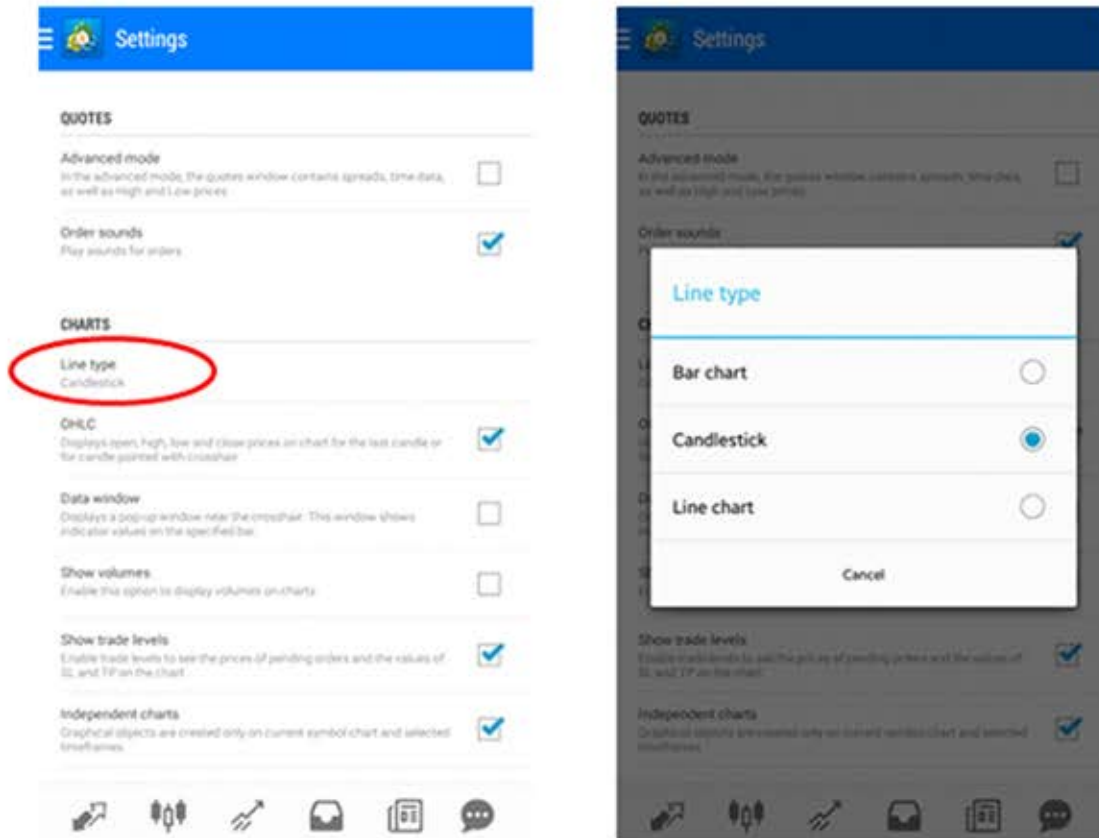

You will see your trade history. You can change the history time interval.

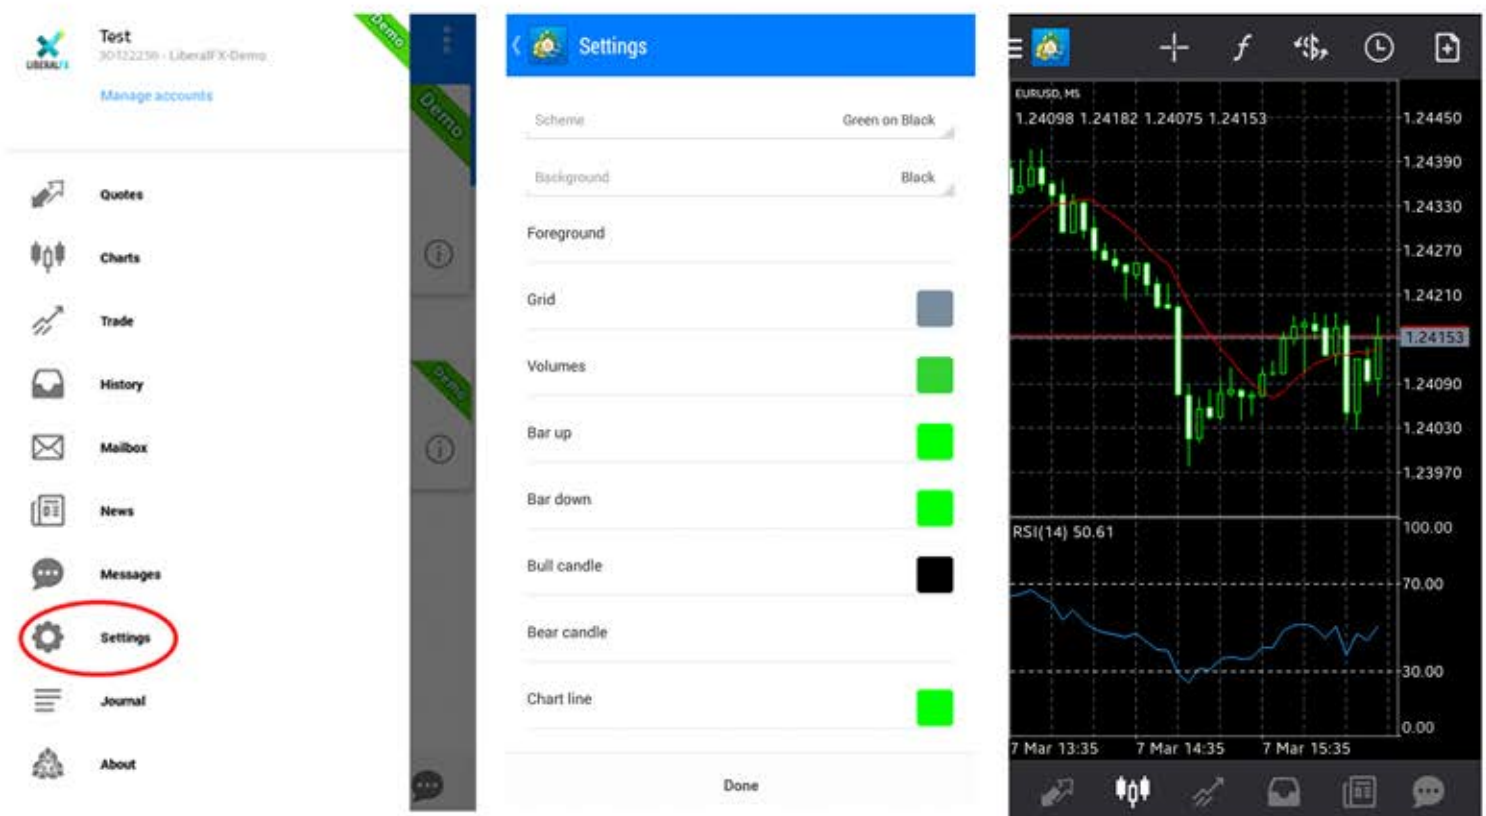

You can change the time interval, when you watch your chart. These are M1, M5, M15, M30, H1, H4, D1, W1, MN.  
M: Minute, H: Hour, D: Day, W: Week, MN: Month

There are three line types on charts (Bar chart, Candlestick, Line chart). You can change the line type.

You can change the colour of the chart from settings, if you want.
